## Pediatric Weight Conversion Charts

To view the conversion charts for the Newborn/PICU/PEDS assessments click the “**View Protocol**” footer button once inside an assessment.

- If a weight is not listed the user can click **Protocol Link**, this will launch a Conversion tool for the weight needed.

Newborn/NICU Conversion chart will be attached to the **Birth Weight** and **Daily Weight** assessments. It shows conversions from lbs/oz to grams, as well as inches to cm.

The Peds Conversion Chart will be attached to the **Pediatric Weight** Assessments and will show conversions pounds to kilograms. The conversion chart will show kilogram conversions for up to 525lbs.
