

# Home Medication Documentation

## Updating (Replacing) an UNDEFINED Home Med

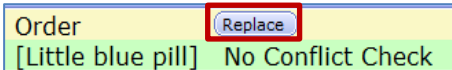

An Undefined Home Med must be edited (replaced) not cancelled.

1. From **Reconcile Meds**, click the **Undefined** medication.

[Little blue pill] DAILY	No Conflict Check	Reported	New Order Nursing RN 10/19/16 @ 1331	10/19/16 @ 0700 Unknown Dose	[Little blue p...
-----------------------------	-------------------	----------	--	---------------------------------	-------------------

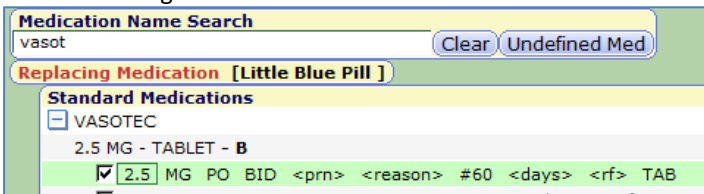

2. Click **View/Change**. 

3. Click **Replace** in the upper left corner of the screen.

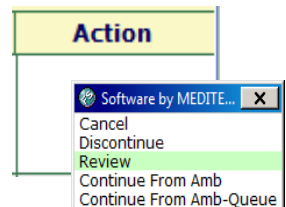

Order **Replace**  
[Little blue pill] No Conflict Check

4. At **Medication Name Search**, clear the undefined med name, search for the new medication, and click to select the order string.

Medication Name Search
