PRN Med Assessments & Reassessments

Assessments & reassessments related to PRN medication will be completed on the eMAR.

Documenting a PRN Assessment

- 1 Scan the patient & the PRN medication.
 - The assessment will open.

Reason for Administration	<input type="radio"/> Pain	<input type="radio"/> Fever	<input type="radio"/> Scheduled Medication
Reason for Administration	<input type="radio"/> Other		
Pain Scale Used	<input type="radio"/> Verbal Numeric (0-10)	<input type="radio"/> FLACC	<input type="radio"/> CPOT
Pain Scale Used	<input type="radio"/> Faces (0-10)	<input type="radio"/> N-PASS	
Verbal and Faces Pain Scale	<input type="checkbox"/> Left	<input type="checkbox"/> Proximal	<input type="checkbox"/> Medial
			<input type="checkbox"/> 3rd

- 2 Document your findings.
- 3 Click **Return**.
- 4 Respond to any prompts and click **Save**.
 - The **Next Scheduled** cell will indicate that a reassessment is due with a time.
 - When a reassessment is due, the medication cell on the **Status Board** will turn pink and show the time due.

Documenting a Reassessment

- 1 Find the Medication with the Reassessment due
- 2 Click the **+** **Reassessment** button found below the med name to view your options.

Reassessment

10/19 1636 Pain/Fever Reassessment Document Not Done Change Time

- 3 Click **Document** or select **Not Done** or **Change Time**, as needed.
 - a. Documenting reassessments
 1. **Recall Values** may be used.
 2. The **Patient Reports Pain Level Controlled or Tolerable** field is required.
 3. Click **Return** and then **Save** to complete your reassessment.
 - b. Assessments should be completed regularly and according to the pharmacy schedule, but if needed **Not Done** and **Change Time** may be used.

Review Assessments/Reassessments from the eMAR

- 1 Click on the **History** cell for the med.
- 2 Click the **Asmt** cell for the administration you wish to review.
- 3 Click **Return** twice when done.
